

Scaleup Program | THE ACADEMY OF NRGY HUB

APPLY BY JANUARY 20TH

Join the Scaleup Program to evolve your business!

What are the energy solutions for the future? How will we use energy in our daily life, society and business? Welcome to Sweden's best arena for growth within the Energy sector!

Apply by August 30 ▶▶

E-learning & co-creative live sessions

WE BELIEVE IN COLLABORATION AND CO-CREATION.

With other entrepreneurs and co-creators you can fully concentrate on what is truly valuable for your business. On our digital platform you'll develop both mind and business strategies. We welcome you as an

entrepreneur to explore, test and develop world class energy solutions together with NRGY HUB.

PROGRAM TIME:

- E-learning: 4-8h per week
- Live sessions: 3 days

Make your future

WELLBEING IS ESSENTIAL FOR YOU AND YOUR TEAM.

Learn how to stay focused and energetic throughout your scaleup journey.

Scaleup Journey

LEARN FROM OTHERS. Leading People, Setting Strategies, Driving Execution and Managing Cash. These dimensions will be explored together with other entrepreneurs during the program.

Organisation

PREPARE FOR GROWTH. When you grow you need to be scaleable within a number of areas. During the transformation, structure and plans need to be implemented.

Team

IT'S ALL ABOUT THE TEAM. Team development, starts with self-awareness. Satisfying and implementing the basic human needs will increase the likelihood of success.

Sales

HOW TO ATTRACT CUSTOMERS AND PARTNERS. Your product doesn't sell itself. New disruptive energy solutions are in the field of complex sales – in the program's network you'll have the chance to closely network with preliminary end customers.

Sweden – an unique springboard for startups within the energy sector

Sweden possess one of the world's best innovative energy environments and the arena is a springboard for the international business development within the energy sector. We offer you a scaleup program heavily supported by the entrepreneurial eco system including the Swedish Energy Agency and boosted by the diversity of NRGY HUB. Among others it includes close interaction with large corporations such as ABB and energy test beds like Studsvik and STUNS.

Testbeds

STUDSVIK TECH PARK. A city within a city – Studsvik offers a completely unique test and demonstration environment where your company can test your solution.

STUNS brings together decision-makers of common concerns at the interfaces between universities, business and the public sector.

Partners

- * SWEDISH ENERGY AGENCY
- * SYNERLEAP POWERED BY ABB
- * CREATE BUSINESS INCUBATOR
- * STUDSVIK
- * STUNS
- * MÄLARENERGI
- * MÄLARDALEN UNIVERSITY

Our promise to a program Alumni:

You'll be all set for scaling up with:

TOOLS FOR YOUR JOURNEY. Insight and tools to measure and adjust your way forward.

SCALEUP ACTION PLAN. Ready to use plans for team, organisation and sales.

HEALTHY & SUSTAINABLE LEADERSHIP. Understanding of the importance of how to value tasks, goals, priorities and life.

About NRGY HUB

NRGY HUB will contribute to a shift in production, supply and consumption of energy for the future.

NRGY HUB is coordinated by Mälardalen University within research specialization in renewable energy, energy efficiency and emission mitigation.
